Home Office
48th Floor!

With **Voice Carrier**, your construction business is everywhere you are.

Construction is hard. Voice Carrier telephone systems make your job easier.

Hard Working and Flexible

Voice Carrier office phones are portable or permanent. Take your phone system with you. It works wherever you do: trailer, multiple job sites, central office, remote office, home office.

Plug into wall and call.
That's it!

All Phones Welcome

Voice Carrier works with desk phones, rugged cordless phones, two-way radios, satellite phones, and cell phones.

Anywhere. Anytime.

Don't Miss a Call Because of...

Poor cell service. Dead battery. Lost your cell phone. Crushed your cell.

You make the call.
You get the call.

Everything Gets Connected

"Hello and thank you for calling XYZ Construction. Please enter..."

WHAT YOU DON'T GET

...a landlocked phone system!

Do You Want To Do This?

You are on the beam 800 ft up and need to transfer a call to the trailer, or the central office, or the supervisor below, or another job site?

Now you can.

and this...

You don't have telephone service at the job site. You need a central alarm system?

Now you can.

and this...

Hold a conference call in the trailer with three vendors in three cities? Add a two-way radio caller? Conference three supervisors at three job sites and two at the central office?

Now you can.

and this...

You want all your phones, offices, job sites, warehouses and other facilities connected on one system from one provider—minus the wires, closet equipment, or technicians?

Now you can.

One unified system.
One monthly bill.
One solution.
