## ***Voice Carrier Donates Emergency Phone Service to Aid in Hurricane Harvey Rescue Effort***

SAN JOSE, CALIFORNIA – Aug. 28, 2017 – Voice Carrier, an innovator and leader in hosted business phone systems, announced today that they are deploying emergency phone service throughout Texas for businesses and other establishments who've lost service due to Hurricane Harvey. They are also donating IntelliSIP™ Emergency Phone Service to shelters, nursing homes, schools, and disaster relief locations throughout the Houston area.

"We want to help get communications up as soon as possible to aid in the rescue effort," said Voice Carrier's CEO, Paul Mahler. "We understand how important it is to have working phones and access to the internet after a major disaster occurs."

The IntelliSIP™ EPS technology can restore phone service within hours. Depending on the situation, hardware, electricity, and installation are not required. Voice Carrier restores the service remotely. Calls can be answered at branch locations, temporary offices, home offices, out of state or overseas.

Voice Carrier creates a remote virtual phone system for those in need. Their phone numbers become operational again through the new system (PBX). Employees and volunteers can place and answer calls using cell phones, desk phones, tablets, laptops, or headsets. An auto-attendant can be deployed to help route calls. Desktop phones are being shipped overnight.

"Team Voice Carrier is here to help. We encourage anyone whose phone service was affected by Hurricane Harvey to contact us and we will work tirelessly to get your phone service up and running again," Mahler said.

Voice Carrier's US-based recovery support team is available 24/7/365.

"The majority of our customers in Texas, including the Crowne Plaza Houston, are up and running. We look forward to helping others get connected again," said Christina Burke, Director of Customer Support.

Contact us at 855-456-8647 for emergency service or visit [www.emergencyphoneservice.com](http://www.emergencyphoneservice.com).

### **About Voice Carrier**

Voice Carrier has been providing ground-breaking phone service since 2007. Headquartered in San Jose, California, Voice Carrier is among the leaders and best techies in Silicon Valley. Our executives are trailblazers in telecommunication technology. CEO and Founder, Paul Mahler, has been a leader in telephone technology innovation for over 30 years. Our cloud-based phone systems inherently cost less than traditional systems—and we pass the savings onto our customers. It's simply a more powerful way to connect, at a much lower cost.
