

# Voice Carrier

Voice Carrier has been a leading provider of hotel phone service since 2007. We are the proven choice for major hospitality brands across the U.S. and Canada. We understand that every guest property is different. Our hotel voice solutions are tailored to fit your needs today, while supporting your growth for tomorrow.

The desire to provide superior service and unparalleled customer support drives Voice Carrier's mission. It's a matter of pride and determination to exceed expectations. Our solutions inherently cost less—and we pass the savings on to our customers. It's simply a more powerful way to connect, at a much lower cost.

Voice Carrier was founded in San Jose, California among the leaders and the best in Silicon Valley. Our executives are trailblazers in hotel communications. Founder and CEO, Paul Mahler, has been building phone system technology for over 30 years. He even "wrote the book" on it with *VoIP Telephony with Asterisk* (2004). Steve Futrell, VP of Engineering, has over 30 years of experience developing and delivering communication solutions for the hospitality industry, including a hotel technology patent.

From the boutique hotel to the mega resort, our unparalleled service and support, genuine approach, and unwavering commitment to excellence differentiates Voice Carrier from all others.
